

# Contents • Topics 2009

- **Welcoming messages**
  - 4 Welcoming message from the German Federal Ministry of Education and Research  
Thomas Rachel, Parliamentary State Secretary • BMBF
  - 7 Welcoming message from the German Federal Ministry for the Environment  
Joachim Nick-Leptin • BMU/Department of Research and Development for Renewable Energy Sources
  
- **Renewable energies and the transformation of the global energy system**
  - 10 Megatrends, challenges and strategies  
Prof. Dr. Frithjof Staiß • ZSW  
Prof. Dr. Jürgen Schmid • Fraunhofer IWES Kassel
  - 18 Significance of renewable energies and of energy efficiency in various global energy scenarios  
Dr. Wolfram Krewitt (†) • DLR  
Dr. Joachim Nitsch • DLR  
Kristina Nienhaus • DLR
  - 24 International energy policy  
Dr. Robert Klinke • Auswärtiges Amt
  
- **Research for global markets – International exchange of experience**
  - 30 Welcoming message from the International Renewable Energy Agency (IRENA)  
Hélène Pelosse • International Renewable Energy Agency (IRENA)
  - 33 The global research market for renewable energies: Competition and technology partnerships  
Prof. Dr. Eicke R. Weber • Fraunhofer ISE  
Gerhard Stryi-Hipp • Fraunhofer ISE
  - 39 The energy and research policy framework conditions for renewable energies in Germany  
Jörg Mayer • German Renewable Energy Agency
  
- 44 TREE – Transfer Renewable Energy & Efficiency – The Renewables Academy’s knowledge transfer project  
Berthold Breid • Renewables Academy AG (RENAC)
- 48 The CERINA Plan – An alternative to the Kyoto instrument  
Dr. Norbert Allnoch • International Economic Platform for Renewable Energies (IWR)
  
- **Research for global markets – Technology partnerships for renewable energies**
  - 52 The German federal government’s strategy for the internationalisation of science and research  
Karl Wollin • German Federal Ministry of Education and Research
  - 55 Off to new markets! – Renewable Energy Export Initiative  
Juliane Hinsch • Head of the Office of the Renewable Energy Export Initiative in the BMWi
  - 57 Solar construction – Climate-appropriate construction in other climates  
Prof. Dr. Andreas Holm • Fraunhofer IBP  
Dr. Michael Krause • Fraunhofer IBP  
Sebastian Herkel • Fraunhofer ISE  
Dr. Peter Schossig • Fraunhofer ISE  
Prof. Dr. Christian Schweigler • ZAE Bayern  
Dr. Norbert Henze • Fraunhofer IWES
  - 61 Concentrating solar collectors for process heat and electricity generation  
Anna Heimsath • Fraunhofer ISE  
Werner Platzler • Fraunhofer ISE  
Stefan Heß • Fraunhofer ISE  
Dirk Krüger • DLR  
Markus Eck • DLR
  - 66 Research on geothermal electricity generation – On-site laboratory at Groß Schönebeck  
Dr. Ernst Huenges • Helmholtz Centre Potsdam/ German Research Centre for Geosciences

- 69 Storing bioenergy and renewable electricity in the natural gas grid  
 Dr. Michael Specht • ZSW  
 Frank Baumgart • ZSW  
 Bastian Feigl • ZSW  
 Volkmar Frick • ZSW  
 Bernd Stürmer • ZSW  
 Dr. Ulrich Zuberbühler • ZSW  
 Dr. Michael Sterner • Fraunhofer IWES  
 Gregor Waldstein • Solar Fuel Technology GmbH & Co. KG
- 79 Solar thermal power plants – Export hits without a domestic market  
 Prof. Dr. Robert Pitz-Paal • DLR  
 Dr. Henner Gladen • Solar Millennium AG  
 Dr. Werner Platzer • Fraunhofer ISE
- 85 Concentrating photovoltaics (CPV) for countries with high direct irradiation  
 Dr. Andreas W. Bett • Fraunhofer ISE  
 Dr. Bruno Burger • Fraunhofer ISE  
 Joachim Jaus • Fraunhofer ISE  
 Tobias Fellmeth • Fraunhofer ISE  
 Dr. Oliver Stalter • Fraunhofer ISE  
 Dr. Matthias Vetter • Fraunhofer ISE  
 Hans-Dieter Mohring • ZSW  
 Dr. Andreas Gombert • Concentrix Solar GmbH  
 Hansjörg Lerchenmüller • Concentrix Solar GmbH
- 90 Requirements for integration of wind energy into the grids of various countries  
 Dr. Kurt Rohrig • Fraunhofer IWES  
 Dr. Bernhard Lange • Fraunhofer IWES  
 Reinhard Mackensen • Fraunhofer IWES
- 94 Off-grid power supply and global electrification  
 Dr. Philipp Strauß • Fraunhofer IWES  
 Markus Landau • Fraunhofer IWES  
 Michel Vandenberg • Fraunhofer IWES  
 Georg Bopp • Fraunhofer ISE  
 Brisa Ortiz • Fraunhofer ISE  
 Dr. Matthias Vetter • Fraunhofer ISE  
 Guido Glania • Alliance for Rural Electrification  
 Michael Wollny • SMA Solar Technology AG
- **Strategic research objectives**
- 104 Future mobility based on renewable energies  
 Dr. Günther Ebert • Fraunhofer ISE  
 Prof. Werner Tillmetz • ZSW  
 Dr. Michael Specht • ZSW  
 Dr. Michael Sterner • Fraunhofer IWES  
 Dr. Bernd Krautkremer • Fraunhofer IWES  
 Dr. Thomas Pregger • DLR  
 Dr. Wilhelm Kuckshinrichs • Jülich
- 111 Integration of renewable energies into electricity and heat supply  
 Prof. Dr. Jürgen Schmid • Fraunhofer IWES  
 Dr. Bernhard Lange • Fraunhofer IWES  
 Dr. David Nestle • Fraunhofer IWES  
 Dr. Kurt Rohrig • Fraunhofer IWES  
 Dr. Michael Sterner • Fraunhofer IWES  
 Dr. Philipp Strauß • Fraunhofer IWES  
 Uwe Krengel • Fraunhofer IWES
- 116 New strategic challenges for research and development of renewable energies  
 Björn Klusmann • German Renewable Energy Federation (BEE)
- 122 Research for global markets – Strategic approaches of the BMU  
 Joachim Nick-Leptin • German Federal Ministry for the Environment
- 127 The area of conflict between technology transfer and intellectual property protection  
 Dr. Winfried Hoffmann • EPIA President and Chief Technology Officer of Applied Materials GmbH & Co. KG  
 Jana Lewerenz • Secretariat for Future Studies  
 Thomas Pellkofer • Applied Materials GmbH & Co. KG
- 133 Innovation structures in Germany for technological leadership – Solar Valley Central Germany  
 Dr. Hubert A. Aulich • Solar Valley Central Germany and PV Crystalox Solar PLC  
 Dr. Peter Frey • Solar Valley GmbH
- **Panel discussion**
- 139 Are Germany's economy and research in renewable energies fit for international competition?
- **Acknowledgement**
- 146 Sponsors and contributors
